KelioIntegral

Your 100% Useful Integrated Solution

- A relevant solution:**
 Kelio Integral adapts easily to your companies working rules and is especially suitable for handling flexi-time and other working patterns within your organisation. Kelio Integral is a combination of the most relevant time and attendance management tools for medium-size businesses and local authorities:
- Absence and Time & Attendance
 - Attendance time clocking hardware
 - Work organisation through schedule management
 - Decentralised information to employees (absence requests with validation channel)
 - Exploitation of data and results
 - Job costing management
 - Access control
- A secure solution, based on the latest technologies**
 Kelio Integral is designed on a 100% Web architecture for improved safety and simplified deployment and use: a Web browser is all that is needed to log in to the system from any PC. Access to Kelio Integral is protected by passwords while utilisation of the system depends on each user's defined profile.
- An open and upgradable solution**
 Kelio Integral can interface with more than 100 payroll software applications (Sage, Pegasus, etc.)

An identity file
 In order to simplify staff administration, you can save and process a large amount of information via the employee's file.

Attendance / Absence
 You can access clockings in real time and manage associated events capable of (e.g. anomalies, overtime totals, bonuses, etc.).

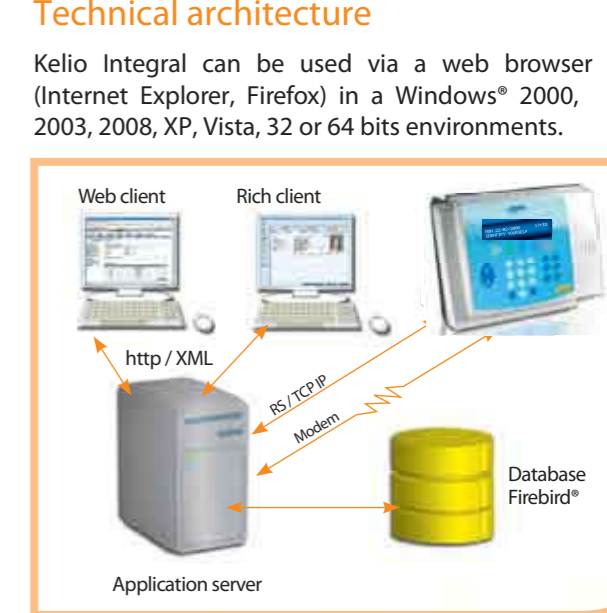

A personal interface
 Administrative procedures can be reduced through the personal interface, decentralising certain functions to different levels:
 - Employees: viewing totals, submitting absence requests, etc.
 - Managers: validating absence requests, viewing their Section's totals, etc.

Planning
 Using the planning interface, you can develop work schedules in accordance with regulatory, personal constraints, etc.

KelioIntegral

The solution adapted to your companies environment

Bodet hardware
 Kelio Integral has a range of high-technology clocking terminals and access readers (Ethernet connection, serial connection, biometric fingerprint and handscan reading, etc.).

Job Costing Management
 Organising and analysing your company's activity with Kelio Analytics module's.

Reporting
 Kelio Integral offers a high number of standard and customisable printouts. These printouts can be exported and saved in various formats: .pdf, .xls, .doc, .jpg.
