

PRESS RELEASE      2 April 2009

## **Whitstable based Kent Enterprise Trust turns to Select Software for their HR and CRM needs!**

Kent Enterprise Trust provides employment, work skills and training opportunities for disadvantaged people within Kent. They provide services at a local level to benefit the community and local employers, particularly in areas of deprivation and growth regeneration.

Kent Enterprise Trust purchased the very latest Select Web Edition HR and CRM software products last month. The fact that Select Software is able to provide both CRM and HR was the driving force behind the purchase as they needed to track and act on campaign information effectively as well as managing their staffing resources.

“We decided to go ahead with Select HR and CRM because of its flexibility for our unique organisation and its connectivity across our other IT systems. We will now be able to stop double and triple entering HR information, saving the company time and money and allowing us to be more proactive. Kent Enterprise Trust and its sister company Enterprising Opportunities CIC involves horticulture services, domiciliary care, training, hub and conference hire, and the CRM system will help us be more targeted with our marketing activity,” comments Rebecca Hawking, HR Development Manager, Kent Enterprise Trust.

“We are looking forward to working alongside Kent Enterprise Trust!” says Dee Caporali, Sales Manager of Select Software. “I am sure that Select Web Edition will prove to be a great asset to them. This people focused solution will manage both their internal and external customer needs, spanning their CRM and HR requirements to bring all their people processes together in one place.”
